Putting our residents first in Ruislip

Welcome to your *Hillingdon People Local*, which highlights some of the things that the council has been doing across the borough and in your local area during the past two years.

A green and sustainable borough

Parks and green spaces

- Hillingdon has 67 Green Flag Awards – the most held by any local authority for the eleventh year running. Ruislip Lido, Ruislip Woods, Hill Lane Park, Churchfield Gardens, Pinn Meadows, Manor Farm and Breakspeare Crematorium retained their flags.
- Natural England extended the existing National Nature Reserve (NNR) boundary of Ruislip Woods to encompass a new 30-acre section

acquired by the council, giving it the same level of protection.

- A 'Great British Spring Clean' event took place at Pinn Meadows.
- In November, the retaining wall at Mill Bowling Club at Manor Farm was rebuilt.

Delivering improvements to your area

- The council's ward budget scheme gives the borough's ward councillors funding annually to spend on local projects. These included:

Find out more at www.hillingdon.gov.uk/chrysalis.

Waste and recycling services

- The council continues to offer free, weekly and easy to use waste and recycling collections. Find out more at www.hillingdon.gov.uk/rubbishandrecycling.
- In summer 2023, following a successful trial at Southcote Rise, the council started

to expand its food waste recycling service to council-owned blocks of flats.

- Our waste and recycling team held three recycling roadshows at Waitrose and Ruislip High Street, and two Repair and Reuse events at the Great Barn, Manor Farm.
- Pink collection bins have been rolled out in libraries to offer residents another way to recycle their small electrical items, including Manor Farm.

Reducing our carbon footprint

- As part of the council's commitment to being net zero by 2030, last July the council approved plans to deliver hundreds of charging points in the borough to meet demand as more drivers switch to electric vehicles.
- Last October, the council introduced a new road repair method which uses 80 per cent less energy than traditional asphalt repairs, 85 per cent less carbon and halves the overall cost of repairs.

Although the challenge was dismissed by the High Court, our fight continues by lobbying government.
