

## Direct care provision Queens Walk Resource Centre

Queenswalk resource centre provides day opportunities for adults with complex learning and physical disabilities. The centre offers a modern facility with the latest technology to support development and maintain health and well-being.

The service is operational Monday to Friday 8am-5pm and provides social, educational, health and leisure-based programmes, personalised to each individual need.

The service is managed by London Borough of Hillingdon, Adult Social Care & Health – Direct Care provision

Queenswalk support adults with complex learning and physical disabilities who have a range of different cultural backgrounds. As part of Diversity Week, creative activities were organised to promote inclusion and celebrate diversity amongst the service users.

These activities included:

- Making posters relating to diversity which involved opportunities to share and talk about everyone's different backgrounds.
- Music, dancing and drumming. For example there was music from Jamaica to Scotland with bag pipes to Bob Marley, Indian and Somalian upbeat festival music and Irish dancers and English Morris dancers dancing side by side. All of these were fully participated in and celebrated by all service users and staff.

### **What was the outcome?**

Service users had an opportunity to share and celebrate their life experiences with a group of services users and staff to gain a better understanding between them all.
