

# HILLINGDON

LONDON

## **Housing repairs for Hillingdon Council tenants: who does what?**

This guide lists most day-to-day repairs in the home and tells you who is responsible for doing them. If your repair is not listed, the council's Contact Centre can advise on who is responsible for the work: call 01895 556600 from 8am-6pm on Monday to Friday or email [HHS-HousingRepairs@hillington.gov.uk](mailto:HHS-HousingRepairs@hillington.gov.uk).

In this document, "we" and "us" mean Hillingdon Council; "you" and "your" means Hillingdon Council tenants.

### What is the Council responsible for?

- Repairing the structure and the outside of your home.
- Making sure that fixtures and fittings for water, sanitation, electricity, gas and heating are safe and in working order.
- Maintaining shared facilities such as communal paths, doors and fences, passenger lifts and communal TV aerial systems.

### What are tenants responsible for?

- Looking after your home.
- Carrying out minor repairs and all internal decoration, including arranging for work to be done privately if you cannot do it yourself.
- Maintaining your own fixtures, fittings and appliances, including any improvement work that we have permitted you to do.
- Ensuring that you, your family, visitors and pets do not damage your home.
- Reporting all repairs promptly to us and letting us carry them out.

### Exceptions to repair responsibilities

- The Council will do repairs that are normally your responsibility if the fault has been caused directly by:
  - your or another resident's disability,
  - domestic violence,
  - an act of crime and you provide a police CAD or Crime Reference Number, or
  - other repairs that we have done in the property.
- You are responsible for doing repairs caused by misuse, neglect and accidents, even if it something we are normally responsible for. We can do these repairs if you pay us but we will normally require advance payment unless there is a health and safety risk.

## Housing repairs: who does what?

- We will maintain items that we fitted as part of a disabled adaptation, even if the item would normally be your responsibility, if:
  - the adaptation was done for a current resident, or
  - it was done for a previous resident but a current resident is also disabled and needs the adaptation.
- We will replace all damaged items that contain asbestos.
- A star \* next to a repair in the list below means there are limited exceptions to the responsibility. More information is available from the online repair reporting system and from the Contact Centre.
- If you are elderly or disabled and have no-one to help you, we may do repairs that are normally your responsibility but we may charge you. Alternatively we may put you in touch with volunteer organisations that can help.

<b>General household tasks</b>	YOU	US
Routine cleaning, e.g. windows, sanitary fittings, kitchen worktops, extractor fans and airbricks, descaling shower heads and hoses	✓	
Internal decoration	✓	
Wiping down condensation and mould	✓
